PLAYGROUND OLYMPICS TO BE CLIMAX OF PROGRAM

As the 1981 Bethel Summer Playground program draws to a close, anticipation is mounting for the final event: the Summer Playground Olympics. Each year the playground staff and volunteers give area children the opportunity to participate in low key competition for ribbons and trophies on the last operating day of the playground program.

This year's Olympics is scheduled for Friday, July 10, at the Crescent Park School. In years past they have used the Gould Athletic Field, graciously allowed by the Gould staff. Due to re-seeding of the field this year, events are moved to the Crescent Park softball field.

This week on the Playground, the children have been involved with interesting arts and crafts projects. A. & C. Leader Sandy Verkuille has taught the fun of making jersey loop pot holders, yarn pictures on canvases, popstick creations and collage, to name a few. Nature projects leader, Tom Harrington, has led the participants in crafts using natural materials, such as leaf rubbings, and leaf people. Weather charts and scavenger hunts have been a part of the fun. An annual feature to the playground was cancelled this year, the dramatics production, due to the fact that so many children would be off on family 4th of July vacations that there were few left to participate in the production on Monday. Nevertheless dramatics play continued with stories and song as well.

This summer's experiment of changing the playground's schedule from two two-week sessions to a three-week long term worked successfully and will probably be the schedule for next year as well. It is fun to find as some come for the first week or two, new children are always registering, and the numbers have averaged 30-36 children per week, the greatest number coming during the first week of the program.

The Board of Assessors met in regular session on Monday, July 6. Joan Coolidge and Alden and Mabel Kennett met with the Board to discuss the valuations of their properties. The Board toured the Doon trailer park and reviewed several trailers. Following the tour and weeks of discussion on mobile home valuations the Board voted 3-2 to include an age depreciation to all mobile homes at the rate of 3% per year up to 15 years. Included in the vote was a commitment to establish for 1982 a point system for arriving at a condition factor for mobile homes. In other action, the Board voted not to factor for 1981, and requested that more information be compiled before a decision is made on the assessment of poultry houses. The next regular meeting of the Board of Assessors will be Aug. 10. The 1981 assessment is nearly complete and it is anticipated that tax bills will be mailed in early August.

The Board of Selectmen will meet in regular session Monday evening, July 13, at 7 o'clock in the Bethel Savings Bank meeting room. Agenda items will include: public hearing on a proposed Affirmative Action Plan to be used in conjunction with Employee Personnel Rules and Regulations; a meeting with the Recreation Board to review activities and a request for change in the number of Recreation Board members from five to seven; review of arrangements and schedule for the Indian Raid Celebration; consideration of a buried cable permit application from Continental Telephone Co. for the Bird Hill Road; the signing of a quit claim deed to release property previously under a tax lien; consideration of road reconstruction work at the intersection of Route #2 and Old Route #2 in West Bethel; an executive session to review advice from legal counsel; and routine items.

members of the Waterford Historical Society in attendance.

P.U.C. APPROVES SALE OF BRYANT POND PHONE CO.

On Wednesday of last week the Maine Public Utilities Commission approved the sale of the privately-owned Bryant Pond Telephone Company to the Oxford County Telephone and Telegraph Company.

Elden Hathaway, who purchased the company in 1951, has been offered \$50,000 by Oxford County Telephone which serves a number of area towns. He said Friday that terms were still being negotiated but expected that the sale could be completed before summer's end.

Officials of Oxford Telephone have not commented as to what their plans for the Bryant Pond system might be, but it is expected that the hand-crank phones would be replaced. Mr. Hathaway said that it would not be economically feasible to maintain the hand-crank phones and that a conversion to dial would require about two years.

The Bryant Pond company, founded in the 1890's, is believed to be the last hand-crank central office system in the country. Mr. Hathaway said that a similar system in Grand River, Iowa, went out of business last December.

It has been increasingly difficult over the past five years for the company, with annual operating expenses of \$65,000 to \$70,000, to make ends meet with increased expenses of salaries, gas, repairs and the price of equipment. The company has about 12 full and part time employees.

The company has managed to keep the rates down: \$3.45 for a multi-party line and \$4.90 for a private line. The customers like the low rates, but many want private phones instead of party lines.

Mr. Hathaway said that another problem has been an increase of government regulation. He cited instances of customers who do not pay their bills but continue to make long distance calls amounting to hundreds of dollars. He says that 10 years ago, service would have been cut off immediately but that couldn't be done today. One or two problems like this is too much for a company of the Bryant Pond firm's size.

Northwest Bethel — East Stoneham

Clarice Gibson, Corres.

Monday, July 6, and after the rains of the week end the living room temperature is 74° and the humidity is 98%. Sunday was a rainy day and here Saturday was also. So many flowers wild and cultivated are in bloom that one drives along the countryside the colors are awe inspiring. George and I went to Readfield Thursday and I went to Readfield Thursday to visit my sister, Marion Tucker, and her son, Robert. We went over through North Paris, Turner, Leeds etc. and almost every yard had some flowers planted outside. As one woman said the colors seem more brilliant this year. The rains this week end were a welcome to the farmer. I suppose the ones who were haying and vacationing had a different attitude.

Mr. and Mrs. R. Glenn Murphy had a family reunion at their Bridge Street home Saturday. R. Murphy and wife furnished hot dogs, hamburgers, and barbecue chicken. Other members brought in hot dishes, salads and desserts. Ira called Thursday telling us that he is now in Okinawa and Friday was his birthday.

On the Hilltop I like to climb to the top of a hill Upon a summer's day, And watch the great white billowing clouds Go sailing on their way.

I like to lie on the soft warm turf And see the wind-stirred trees; To smell the fragrance of the flowers And hear the hum of bees.

I like to look on the cozy farms And fields and lanes below; Oh to climb to the top of a hill Is the pleasantest thing I know. —Author Unknown

MIDDLE INTERVALE MEETING HOUSE SOCIETY

The following information has been presented on those memorialized by their families in purchase of Foundation Stones #2 and #4 at the Middle Intervale Meeting House. (More stones are available for anyone interested to use in this way.)

Foundation Stone #2 in the course on the west side of the Middle Intervale Meeting House, facing the old County Road, was dedicated to Philip Lawson Carter by his children Nancy E. Slawvey, Harvey E., John L., George W., Russell A., and Kathy J. Carter. Family memorial services were held at the Meeting House on 18 April.

Phil was born in Bethel, Maine. He spent most of his younger days in La Loure, Canada, then attended Gould Academy and Tufts University. He was employed by Bridgeport Brass Co. In 1947 he transferred to Noranda Copper & Brass in Montreal. Noranda Mines purchased U. S. shares and Phil stayed with the Canadian company. In 1967 he transferred back to Connecticut with Noranda Sales, with offices located in Danbury. He was living in the rural town of Hampton, Conn., at the time of his death.

With his wife, Florence Bertelson, he kept open house in both countries for a host of family and friends and was loved for his most generous and kindly hospitality. His children loved him for his merry personality and respected him for his gentle but firm discipline. He is much missed.

Phil is survived by four children and five grandchildren in Canada and two children in Connecticut, his wife in Connecticut, and sister, Mrs. Donald Johnston in Grass Valley, Calif., and four nephews.

His death occurred suddenly on Dec. 26, 1980 at his home in Hampton, Conn. He was 65 and on eve of retirement.

Foundation Stone #4 on the east

side of the Middle Intervale Meeting House is dedicated to Mrs. Elizabeth Johnson to her son, George Burnham Morrill III.

He was born at Windham Hill, Maine, in 1940, went to local schools and to Holderness in New Hampshire before serving in the U. S. Army from 1960-1963, stationed in Oklahoma and Hawaii; then graduated from Brown University in 1967.

With his wife, Nancy, famous for her cooking, and their three sons he lived in Bethel from 1970 to 1976. Those sons are now very grown up, Stephen and Michael in college and Jonathan living and going to school in the Hope-Camden area.

George was known to all as Butnie and engaged in many activities quite different from his former life of sailing, flying planes, etc. He helped in community projects; he worked for Bethel Water Company, digging ditches, repairing mains and such; he built door steps for elderly ladies; he struggled with winter cold for a construction company repairing Upper Dam in the Lake Country. His artistic creative talents remain forever exemplified in the summer home he designed and built for the family in Tenants Harbor.

He had an insatiable desire to discover what was good and useful. He read widely from Dante, Ghandi, Carlos Castaneda. He tried to understand the problems and aspirations of all kinds of people. Like Thoreau he danced to a music different from that of many of his compatriots and was not always understood by all of them.

He was a man who grew up on the cusp between the world as it was and as it might be—between living the way he was supposed to and the way he felt he should. He died of the conflict. He is missed.

WOODSTOCK HISTORICAL SOC.
COMPLETES SURVEY
OF CEMETERIES

The Woodstock Historical Society has completed its survey of local cemeteries. It is hoped that this information will prove valuable to those whose ancestors lived in Woodstock. Genealogists could make good use of this information.

Ruby Emery, Mary Billings and Larry Billings went over the South Woodstock cemetery, then Larry did the main cemetery in Bryant Pond. These two cemeteries are now cataloged in the Historical Museum files. Parle Noyes, the Society president, also surveyed one of the smaller cemeteries. Then Mrs. Emery made the major contribution. It seems she had already gathered information on most of the smaller cemeteries: Kinsman, North Woodstock, Felt, Dudley, Gore Road, Curtis Hill, Packard, Whitman, Dunham, Day, Bryant, Moody, Perham, Nute-Stevens, and Swan. Some facts she took from the late Eva Bean's research, and other information she gleaned from Whitman Library's Libby notes. She gave the Society a copy of her book "Woodstock Cemeteries." Hopefully, she will incorporate the other two cemeteries and make the work available to people in the area.

Meanwhile, anyone who wants to do research on area cemeteries is always welcome to come to the museum. If anyone knows of any cemeteries that may have been omitted inadvertently in the survey, please contact Larry Billings or Ruby Emery.

The next meeting of the Society on Saturday will be on the Restoration and Preservation of Old Cemeteries by Steve Seames.

Recent donations include a pulpit Bible from Whitman Library and a good sized collection of Down East and Bitter Sweet Magazines from Mary Billings.

This has been a busy week end. Friday night, Verna Swan, Richard Felt, Olive Davis and Gail Butterfield were at Sabbathday Lake Grange for the Lecturer's meeting which their Lecturer puts on every year. Dot Coyne goes all out for this meeting and there are anywhere from 10 to 20 different Granges represented at the meeting. The chairs were filled by visiting ladies this year, and the men were to furnish the program. However, some of the ladies helped out, too. These faithful women, you know.

The Willing Workers will be vacationing until September when they have their next meeting unless something special comes up. Whoever would like to entertain in September, please let me know.

EXHIBITS NEEDED FOR INDIAN RAID CELEBRATION

Only a few persons have responded to requests for exhibits during the two day exhibition of "Antiques, Heritage Crafts and Hobbies, Saturday and Sunday, Aug. 1 and 2, in the Gould Field House.

If anyone who is considering this would like to discuss what they might exhibit they should contact Mrs. Elizabeth Carter soon (tel. 836-2343).

A very large area is available for this purpose so pieces of furniture such as chests, tables and beds, as well as small furniture and accessories may be used. Everything will be grouped according to its period in time. It is suggested that should exhibitors decide to show a piece, for example, used between 1781 and 1831, it be accompanied by other things of that period.

Already an exhibit of locally-owned doll and children's furniture is offered, and should anyone else have things like this for children, it will be welcomed.

Furniture was made in this area over the years, including tables and chairs. The earliest cabinet-maker was Marshall Bonney, and it would be of great interest if anything produced by any such maker were offered for exhibition or anything crafted locally, whether by hand or in local factories.

A basket exhibit is desired and also someone to demonstrate this craft. It was hoped the local quilting group would arrange an exhibit, it seems that is impossible at this time, so someone else skilled in quilting is sought to demonstrate and exhibit—room for many quilts and coverlets. Things used in the early cabins of limited space and comfort, as well as

Scott and Glen Poisson of Charlottetown, N. C., and Marlo, Matthew and Andrew Lincoln of Worcester, Mass., are visiting their grandmother, Mrs. Louise Lincoln, and aunt, Nancy Lincoln, on Evergreen Road, for a few weeks.

It is a busy Celebration week end and many are entertaining guests, and finding it difficult to also participate, but it is urged that all who possible can, do so, to be sure those who come to view, will find it interesting.

Full identification must accompany any item with any extra information as to when used and how—written or typed on plain white cards, and legible.

Someone to show how to cane chairs, stencil furniture or toleware is needed, too. Is anyone around who knows how to make shoes as done 200 years ago or in the 19th century?

E. B. S. PARENTS

Contributions of "saleable edibles" are needed for the Ethel Bisbee School booth on Mollycodd Day. Could you donate some baked goods, jam, or whatever? If so, bring them to the booth Saturday noon, July 18—or take them to Caroline Gould on Chandler Hill Road. Thanks!

Things from later finer residences all have a place in this exhibit. Tin ware, decorated and plain, scented things, iron and copper and brass items used in homes are all welcome, as well as rugs.

We spent a very quiet Fourth of July as we had no company and the phone is out of order. Except for a short period of booms from fireworks in the distance, the fireflies furnished the night display and the birds contributed the noise. In spite of the calm observance of our country's birthday, we daily thank God for the privilege of living here, for the freedom, the beauty and the peace.

The Aron and Gottier families enjoyed a cookout on Monday.

The Goodwill camp was occupied during the week end by owners.

The Claude Lavalles spent the holiday week at their camp. Pauline and Lynn spent much of their vacation picking wild strawberries.

A pack of wild dogs got some fowls in town and scattered others.

Church services were held with a small attendance. Most folks had company or were visiting.

I had hoped the telephone would be back in service and I might be able to report livelier holiday doings, but perhaps I can catch up next week.

What better way to start the week than to put on the Go-Shoes Monday morning and take off. It was raining as it had been a good part of the time since Saturday so off we went to Norway for Joe's regular blood check and a little shopping. After Sunday, June 28, the Go-Shoes kept the hook company until Friday then they went to Norway, South Paris, where we met my granddaughter, Pat Yates, then down to Oxford for errands, back to South Paris to do some wedding shopping for another granddaughter.

On Saturday the great day when Lorene Billings and Preston Cobb were united in marriage during a cloud burst. How the rain did pour down. Everyone got more or less wet getting from the church to their cars. The reception was held at Bear-River Grange Hall.

Greenwood City

Mrs. Collette Morgan, Corres.

It is now the first week in July. The day lilies and brown-eyed-Susans are in bloom along the roadsides and in the meadows. Adding to these hot, tropical shades are the hawkweeds. I wonder if they are trying to match the colors of the oriole, goldfinch, and scarlet tanager?

I twisted my knee so have remained near home, as far as walking goes, all week.

At this time of writing I'm sitting on my lawn. The air is warm, the sky clean and clear except for a few clouds, which make patterns, then drift across the sun.

The loudest sound at the moment is that of the humming bird visiting the Bee Balm, as some call it, or known to others as Oswego tea. But the humming birds and the bumble bee call it "My-own. They love it, as a child loves a candy store. It's a member of the mint family. Its blossom is tattered, disheveled but flaunts its red flowers against a rich green background. Touch a leaf and your whole hand is perfumed with mint and spice.

I have only to look up to see Nature's grand masterpiece. There are the mountains that borrow beauty from their surroundings, as they sit majestically gorgeous and massive with hunched shoulders and trees crowded at their feet.

On the Sweet-William plants a humming bird moth hovers over the flowers to sip the nectar, extending its long sucking tube.

It is a good time to think of the little things that make up life, the biggest thing of all. As I pause to remember the many things which I have noticed while in the woods or here, I could make a volume. But I'll list only a few, as I think of them: Talking water curling through alders, which crowd down to the bank to watch the brook go by—A little star peeking from a rain pool—Corduroy ridges of a ploughed field — Running deer waving a white flag—Green fields in patchwork colors—The eternal twilight of the woods—Stone walls, crumbling, and fences staggering across meadows — Symphony of frogs and crickets—Nor-

thern lights with arms and fingers clawing their way among the stars. The startling boom of the partridge—Emine clad forests after a storm—A frozen pond opening its eyes to peep at spring — Early dawn, wind rising to blow out the stars — Colorful Autumn — October's pretty afternoons, while the mountains dress in purple robes — Rain playing drums on the roof—The sun bleeding on the snow as it sets for the night—Swooping swallows of evening — Ducks making a wedge leaving the pond at dusk—Rising fish dimpling the water—Singing winds—Country cemeteries and little white churches—Acorns wearing tam-o'-shanters—The moon's golden path across the water, while the old day is led in purple dusk down the steps of TIME.

"Time's fast fleeting moments; How silently they go; No more can we possess them, That's one thing we all know."

Mr. and Mrs. Russell Brennan, Seakonk, Mass., spent several days at their camp this week.

Visitors here were Mr. and Mrs. Dale Mills, Shapleigh; George Ridley, Wanda Billings, Norway; Denise and Joshua Adams, local; David Holt, Dexter.

Mr. and Mrs. Terry Spire and children were at the Hayes Homestead for the week end. They and Doris Hayes joined some twenty others for a family gathering at the cottage of Ardell and Betty Hayes at North Pond, Norway on July 4.

The twin daughters of Mr. and Mrs. Duane Hayes stayed with their grandmother, Doris Hayes, Sunday night.

Robert Holt and boys of Windsor; David Holt, Dexter; Ann Holt, Bethel; were at their parents, Mr. and Mrs. Leonas Holt, over the week end.

ford to the Moses Mason House, site of Bethel's first post office. Dr. Mason was Bethel's first postmaster, beginning his duties in 1815. Also cited were a number of other relationships between citizens of the two towns including militia musters, temperance meetings and religious activities. Dr. Leander Gage, son of early Bethel settler Amos Gage, settled in Waterford and began the Gage family's long association with Waterford. O'Neill Robinson, nephew of Mrs. Moses Mason was born in Bethel but died in Waterford, exhausted from fighting in the Civil War. He is buried in Bethel. The most common association between the two towns was marriage between the residents. Howe cited over 20 instances where Waterford women had been successfully wooed by Bethel men.

During the business portion of the meeting Vice President Donald G. Bennett presided. Members were reminded of the Indian Raid Bicentennial to be held on Aug. 1 and 2 and that they should order their Bethel history early in order to be certain of obtaining one since they were selling at a brisk pace. The artifact of the month was an 18th century leaching stone, the gift of Alden Kennett. The next meeting was announced for Aug. 6 and will be the Society's last event observing the bicentennial of the Indian Raid.

Following the business meeting, members and guests were entertained by a performance by Bill Wood and Herb Adams, portraying Artemus Ward and Charles Farrar Browne, respectively. Browne, born in Waterford in 1834, would become the nation's first widely recognized humorist. President Lincoln's favorite humorist, he created the character of a comic showman named Artemus Ward. Adams and Wood perform their complete show "The Genial Showman" each Sunday evening in the barn of the Artemus Ward home at Waterford.

BONNEMA POTTERS EXHIBITING AT NORWAY ART CENTER, JULY 14-25

The second exhibition this season presented to the public by the Western Maine Art Group at the Lajos Matolesy Art Center, Norway, will be Bonnema's Pottery for Table and Garden, starting Tuesday, July 14. The work of Garret and Melody, talented husband and wife team of potters from Bethel, will be on display through Saturday, July 25. It will feature place settings for the table, and garden settings including bird baths and garden benches. They will also show pots, planters, casseroles and tiles using 23 different glazes, all inspired by the gently curving contours of the Maine landscape they both enjoy so much. Their distinctive work is carried on in the large barn which is attached to their home.

The Bonnemas grew up together in Pennsylvania where they attended the same high school and church. Garrett received his high-

er education from Bates College, and Melody from Pratt Institute. After marriage and earning a living teaching school, they decided what they really wanted to do was to establish a simple life-style in Maine and pursue a career together as potters, a craft in which Melody already had training and experience.

Through good fortune, a deep personal commitment and much hard work, they now have a well-established business in Bethel where they moved in 1974. They are also members of a craft group, Praxis, which they helped establish in Freeport. Their manner of living allows them to share the care of their small daughter, Leah, as well as the household chores.

A reception in their honor will be given Tuesday, July 14, from 6-8 at the Art Center, Norway. The public is invited to meet the Bonnemas and view their unusual and original craft. Daily gallery hours are 9 a. m. to 5 p. m., Tuesday through Saturday.
